## **EXAMINER'S AMENDMENT**

- An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
- The application has been amended as follows:
- On the first page of specification, line 4, after the title of the invention and before Technical Field, please insert, " This Application is a 371 of PCT/JP01/04331 05/23/2001".

## REASONS FOR ALLOWANCE

- The following is an examiner's statement of reasons for allowance: The present invention is directed towards an image processing method and apparatus for extracting an object image from image data as designated by the user. The closest prior art, Ikeda (USPN 6,510,243 B1), shows a similar system, in which, image data is input via an image scanner, the input image data is segmented into regions with a predetermined size, the contents of the segmented regions are analyzed and neighboring segmented regions are coupled if they have the same analysis contents. The attribute of a region group obtained after coupling is determined based on the analysis result, the image data is categorized into regions in units of attributes on the basis of the analysis and determination results, and regions in each category are managed together. However, Ikeda fail to address: "for coupling image data corresponding to the designation data to form a group corresponding to an object, detecting a feature of the image data corresponding to the designation data and uncoupling the image data within the group, coupled by the coupling step and corresponding to the designation data, according to each feature of image data corresponding to the designation data". These distinct features have been added to all independent claims and render them allowable.

- Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
